Your week is the Gold Week

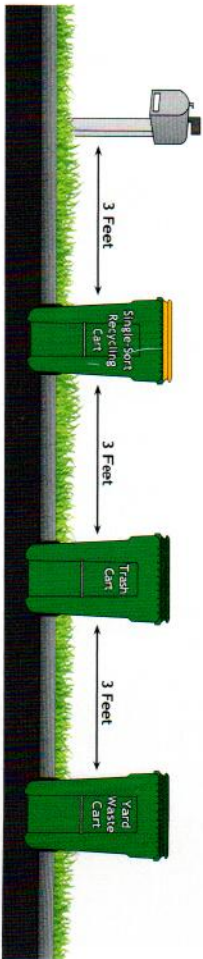

RECYCLE OFTEN.  
RECYCLE RIGHT.<sup>SM</sup>

### 2020 Gold Week Calendar Inside

Ever wonder, “Why and how to recycle?” Sure, it’s good for the environment, but there’s more to it than that. When you use Recycle Often. Recycle Right.<sup>SM</sup>, great things happen.

#### The Main Rules of Recycling:

1. Recycle all bottles, cans and paper
2. Keep items clean and dry
3. NO plastic bags.
4. Place 3 feet away from all other objects.

We need your help to sustain recycling. Certain offenders can slow down the recycling process or even ruin the load.

If we all do our part, the results can really add up. Last year alone, Waste Management recycled enough material to fill nearly 169,000 737s.
